Languages	Korean, English

EXPERIENCE

Software Engineer Intern (Sustech Engineering, Perth WA)   Dec 2023 – Jun 2024

- Worked in a team to transform Word and Excel form files into web-based formats using PHP and Laravel.
- Integrated the system with MySQL database for efficient and simplified data storage via direct web input.
- Reduced user input errors by 30% through enhanced validation and automation.
- Implemented a user-friendly lookup feature for form submissions and saving progress.

Office Administrator (GT Engineering, Perth WA)   Aug 2024 – Present

- Managed payroll and client communications in a recruitment firm for welders.
- Created and managed the company website using WordPress: greatteamengineering.com.

Team Lead Sushi Maker (Super Tetsudo, Perth WA)   May 2020 – Dec 2022

- Led a 6-person sushi team in a fast-paced environment, ensuring quality and efficiency.

PROJECTS

Recipe Recommender   React, TypeScript, Remix

- Developed a web application using Remix and Vercel's AI-SDK to suggest recipes based on uploaded images.
- Used GTP-4-turbo to extract ingredients from images and display recipe suggestions in a responsive UI.
- Implemented an API route in Remix that processes user preferences and queries AI-SDK for personalized recipe suggestions.

Capstone Project (Team Project)   React, JavaScript, Node.js, Express.js, PostgreSQL, Docker

- Collaborated with 5 teammates to develop an Enrolment and Availability Tracker system.
- Developed the unit page for viewing, adding, and editing unit information.
- Created API endpoints and implemented a user-friendly UI.
- Utilized Docker for consistent development and production environments.

Portfolio Website   React, TypeScript, Next.js

- Built a personal portfolio to showcase projects and experience.
- Implemented responsive design, animations with Framer Motion, resume download, and contact form using EmailJS.
- Managed version control with GitHub and automated CI/CD deployments via Vercel.
